

INVITATION

Innovations, yachting and ocean race

Friday, may 13 – 3 p.m.

Le Hangar Zero – Le Havre

"Creativity is contagious, pass it on."
Albert Einstein

Presentation launch of

Arsouin 40 hybrid

Jean-Pierre Bigot, Arsouin Marine
Vincent Lebailly, naval architect
Natalie Amoros, designer

Arsouin 40 hybrid is a lifting keel sailboat, the first in a range of cruising yachts designed from the start with electric propulsion and hybrid energy.

Far from the conventional paths of sailing, Arsouin 40 innovates in the design of its interior fittings, in the ergonomics of its cockpit and tillers positions and in its design for a high-performance, eco-responsible sailing and wellbeing on board.

Eco-responsible Innovations
In Ocean Race

Thimoté Polet

European champion 2021 in match racing
Rolex Fastnet Winner (2019)
First participation Transat Jacques Vabre 2021

Performance, Environmental Responsibilities,
Social Responsibilities, the three main axes of
Thimoté Polet's project for offshore racing and
Transat Jacques VABRE 2023
